

2018/2019 Class Placements

Staff will begin the process of building next year's classes shortly. Our staff spends a significant amount of time considering classroom placements for September and decisions are not made lightly. Information is gathered from teachers from same grades, previous grades, and the next grade, as well as the learning support teachers and school administration. Decisions are made on the best educational environment for each student, as well as creating a classroom that is balanced in terms of class size and composition. Criteria for making these decisions include: academic ability, behavioural concerns, gender balance, social compatibility, split grades, teaching style, and learning style.

While we already know a great deal about your child, if there is a specific need of which we should be made aware, please let us know. Keep in mind that the grade a teacher teaches, or whether or not they are here at all, may well change between now and September. Therefore, please DO NOT just request a specific teacher by name. Instead make a request about the type of learning environment preferred. Requests should be made in writing in the form of an email to Ms. Condon, and must be received no later than June 15, 2018 to be considered. We will review each request, but understand that we may not be able to fulfil them all.
